

YURII ARUTIUNOV

JUNIOR FRONT-END DEVELOPER

+380(96)000-44-44 | Y.ARUTIUNOFFF@GMAIL.COM | [TELEGRAM](#) | [LINKEDIN](#) | [GITHUB](#)

SKILLS & ABILITIES

Languages: JavaScript, TypeScript, HTML, CSS

Libraries: React, Next.js, React Native, React Router, Redux, Jest, Bootstrap, Express

Tools: Git, Agile, Node.js, ESLint, VITE, Expo, Docker, AWS Lambda, VS Code

EXPERIENCE

03.2024 – 02.2025

Volkswagen, Wolfsburg, Intern Front-End Developer

Developed an end-to-end application using React, TypeScript, and Bootstrap.

Improved code cleanliness and manageability by transitioning from React's useContext to Redux, resulting in a reduction in code complexity.

Implemented React Router for efficient navigation, enhancing user experience and reducing page load.

Oversaw the deployment lifecycle through development, internationalization, and QA stages.

Collaborated with UI/UX and backend teams to ensure cohesive design and functionality, resulting in a 6.3% increase in user satisfaction as measured by user surveys.

EDUCATION

April 2022 – April 2024

42 Wolfsburg - Certification Programm

Completed extensive training and coursework at 42 School, acquiring advanced knowledge in software development and programming.

PROJECTS

Jammming – *Spotify Playlist manager*

Developed Jammming, a playlist manager app, using React, TypeScript, CSS, and HTML. The project integrated REST APIs and the Spotify API to enable seamless playlist creation and management. This application showcases my ability to build interactive user interfaces, handle API integrations, and manage state effectively within a complex application.

Transcendence – *Multiplayer Pong game with social features.*

As part of a collaborative team, I focused on developing the application's front end, working alongside one front-end developer and three back-end developers. Utilizing React, I implemented the game logic for the Pong game, ensuring a smooth and interactive user experience. I also developed the user profile features, allowing users to customize and manage their profiles seamlessly.
